

Create a tax calculator using only HTML5, CSS3 and JavaScript:

## Tax calculator

Monetary amount

Tax percentage

**Calculate**

Tax amount: 0  
Final amount: 0

## Tax calculator

Monetary amount

Tax percentage

**Calculate**

Tax amount: 27665.86  
Final amount: 32872.12

- Input validation should be implemented:
  - “Monetary amount” can be any positive number with up to 2 decimal positions
  - “Tax percentage” can be any positive number up to 100 with 2 decimal positions
- The output values will be displayed with 2 decimal positions
